To Physicians Throughout the United tates.—Wolfe's celebrated Aromatic Schledam Schnapps. Deeming it unnecessary to remind any regular member of the medical profession of the established qualities of pure ciliant gin, in many diseases of dropsical tendency. I researchly invite your examination of a very superior article, annihotured by myself exclusively, at Schiedam, in Holmand, by a process peculiar to my own factory. It is favoral and medicated, not by the common harsh herry, but by se cheice botanical variety of the aromatic Isalian jumperery, whose vinous extract is distilled and rectified with its sirtiuous, and thus becomes a concentrated tincture of consiste flavor and aroma, altogether transcendent, in its ordical and medicinal properties, to any Holland gin heretor known.

quants havor and aroma, altogether transcendent, in its cordial and medicinal preperties, to any Holland gin herotoge known.

And the influx of inferior distillations with which the market is now flooded, physicians find no little difficulty in grecuring a good and pure gin which they can prescribe with confidence in its beneficial effects. As an importer of twenty years' standing is the city of New York, and possessing a matured experience in the manufacture of Holland gin espocially, I beg to submit to your attention my "Aromatic Schiedam Schnappe" as one which cannot fail to realize your unionst expectations, and I shall be happy to forward to you a bottle of it, free of charge, in answer to a letter infimaling your readiness to accept it.

It is now scarcely one year since I have prepared and discributed my Schiedam gin exclusively for medicinal purposes; yet within that brief period I have received numerous letters, both from physicians and patients, testifying to its really extraordinary efficacy in gravel, inciplent dropsy, and affections of the kidneys and bladder generally; also in dyspeptic maladies, when taken in proper quantities as a dierriak, and especially as dinner, is found by uniform experience to be eminently efficacious in the most obstinate cases, when oven the best of the usual remedies have failed to afford mere than temporary relief; and I have no doubt that it would yield similar results, with precision and certainty, in your own professional experience. The Aromatic Schiedam Schapps is put up in atrong bottles, pints and quarts, neatly covered and labelled, with my name embosed on the bottle; also a fac similie of my signature on the label, and my scal on the cork, with an essay upon its proporties.
